

# CLEARANCE OFFER

## SCHLEICHER & SCHEULL® POLYTRAP® 295PE

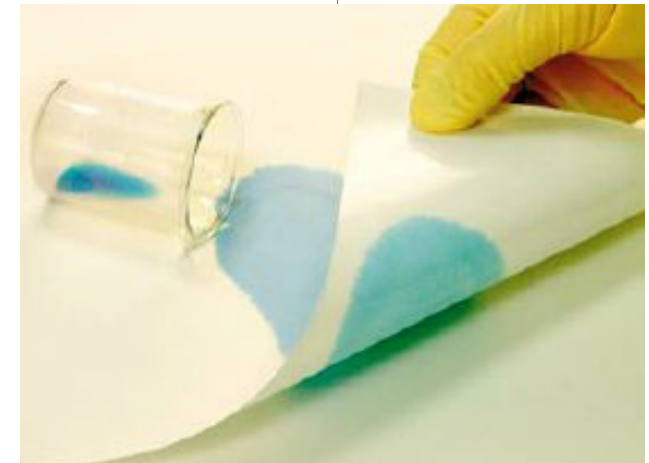

**Highly absorbant bench protection paper.  
Discontinued item so only while stock lasts!**

### General Description

- Upper surface is a particularly absorbent filter paper.
- Lower surface is an impermeable chemically resistant polyethylene layer.
- Both together make POLYTRAP® a universal protective paper with a particularly high wet strength.

### Applications

- Surface protection for chemical cabinets and lab benches.
- Helps prevent breakage of dropped glassware.
- Contamination protection in isotope and bacteriological laboratories.
- Absorption of valuable, toxic or radioactive substances.
- Hygienic protection in laboratory animal cages.
- Atmospheric control in humidity chambers.
- Protects against infectious diseases if soaked in disinfectant, which is ideal in clinical labs.
- Absorption of condensate.

**Clearance Price: ONLY £55.00**  
per 600mm x 50m roll
